LEARNING OBJECTIVES

- Benefits, functions and applications
- Technology
- How to Sell
- Collections and Accessories

BENEFITS

There are 3 major benefits of Heated Towel Racks

1. Luxury & Comfort
2. Health & Wellness
3. Cost Savings

A2856B

LUXURY & COMFORT

- Heated Towel Racks provide a wonderful luxury and comfort as one finishes their bathing routine.
- Wrap yourself in a warm, cozy towel or bathrobe after a shower/bath.
- Provides radiant heat to a bathroom, improving the guest's comfort.
- Plays into the senses of temperature & touch: It's like a warm embrace.
- Never use a damp and smelly towel again!

The Spectator Hotel – Jeeves HSP

HEALTH & WELLNESS

Health & Wellness has become an important element in interior design.

- Heated Towel Racks have been proven to reduce bacteria growth on towels:
 - 94% reduction after 3 days
 - 99% reduction after 7 days
 - Eliminates foul odors caused by mold and bacteria – towels always smell fresh and clean.
- Reduce humidity in bathroom by eliminating moisture.
- Promotes a healthier and more hygienic environment by drying towels and spaces which helps prevent mold, mildew and bacteria growth.

Contaminated-Soiled Dampening Experiment Results

The heated towels demonstrated far fewer bacteria per square inch of towel than the unheated towels at each timepoint evaluated, after day-0. This indicates that the heated towels mitigated against the growth of the experimental bacteria introduced to the towel during the daily dampening. It is notable that the active bacterial load on the towels actually decreased between day 0 and day 3 suggesting that the majority of bacteria introduced at the time of dampening were not viable after exposure to the either towel rack. After Day-3, heated towels had between 0.17 – 03.6% of the recovered bacteria relative to unheated towels, **resulting in a ≥94% reduction of living bacteria on towels that are dried on a heated towel rack compared to similarly treated towels that are not heated.**

A musty odor was only detected on the unheated towels at day-4 and beyond.

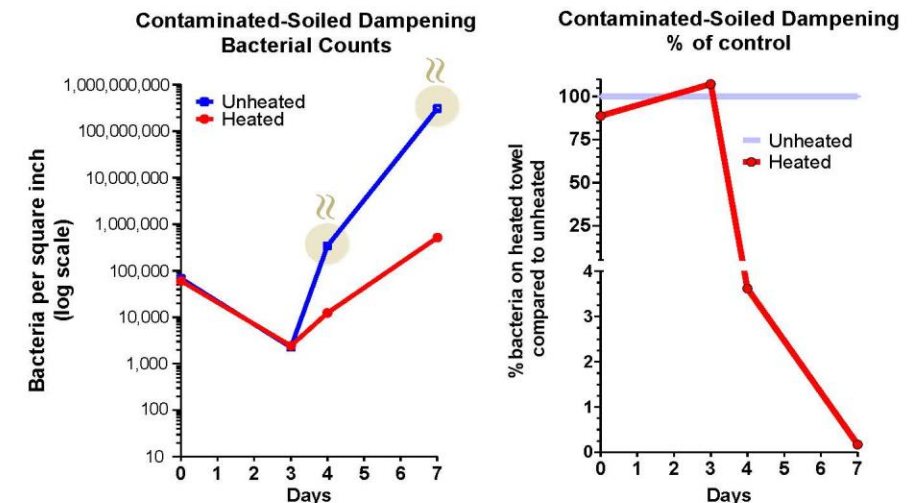

Figure 2: Quantitation of viable bacteria extracted from towels after daily cycles of contaminated-soiled dampening. [Left] Raw numbers of bacteria per square inch extracted from towel cuttings, expressed as the average value from 3 towels. Values are plotted on a log scale. Conditions that were observed to have a musty odor are highlighted with tan circle and an odor symbol. [Right] The quantity of viable bacteria extracted from the heated towels is expressed as a percentage of the control (unheated) towels at the same timepoint.

Heated Towel Rack Mitigates Bacterial Growth
Assessment of the EMSL Analytical Report on the Efficacy of the Solo 33" Freestanding Towel Warmer to reduce bacterial growth on towels under daily wetting conditions².

Jack M. Webster PhD

COST SAVINGS

Heated Towel Racks can provide significant savings to any household:

- Time – less laundry as towels are used longer = more time doing the things you love.
 - About 2 - 2.5hrs to wash, dry & fold a single load of towels
- Electricity – it costs about \$4/mo to run for 4hrs day/7 days a week. It costs \$16/mo to wash & dry a single load of towels.
- Water – average washing machine is 14/gal per load or almost 675gal/yr assuming 1 load per week. Reducing your wash frequency to every other week will cut your water consumption in half.
- Wear & tear – washing your towels less frequently will prolong the life of the towel and reduce how frequently they get replaced.

Assumptions:

Average household: 4 people

Towels per week per person: 2

Laundry loads per week: 1

National avg cost of power: \$0.23 kWh

Average Towel Warmer rating: 150W

Reducing your laundry frequency from 4x per month to 2x per month will save you on average:

Time: 4–5hrs per/mo. or 48–60hrs per/yr.

Electricity: \$8/mo. or \$96 per/yr.

Water: 28gal/mo. or 336/gal per/yr.

APPLICATIONS: BATHROOMS

Most Heated Towel Racks are installed in bathrooms. Whether its to provide radiant heat, dry damp towels after use, or warm them up, they offer many improvements over a standard towel bar or robe hook.

- Add comfort and luxury to bathing experience
- Keep towels and bathrobes dry and warm
- Clean, fresh and fluffy towels – every time!
- Provide radiant heat to bathroom – take cool edge off during cold winter mornings

WET AREA APPLICATIONS – JEEVES COLLECTION

When installing a towel warmer in a 'wet area', additional precautions need to be taken to meet code & safety requirements

- Jeeves collection offers a **UL Certified** wet rated kit that makes any Jeeves model safe for wet areas
- Wet Rated Kit eliminates restrictions and provides more convenience and flexibility for installation
- Approved for NEC Zone 1 & Zone 2 locations:
 - Above a bathtub
 - In a shower
 - In a wet room or wet area

JEEVES WET-RATED KIT

UL US LISTED 2021.10

The Jeeves Wet-rated Kit is a UL certified upgrade kit that allows for the installation of any Jeeves towel warmer in a 'wet area.' These include but are not limited to above a bathtub, in a shower alcove or walk-in shower stall, or in a wet room. Following proper installation, the wet-rated kit ensures any Jeeves towel warmer is safe to use in these areas.

HEATED TOWEL RACKS

www.ambaproducts.com | +1(404)350-9738

APPLICATIONS: LAUNDRY & MUD ROOMS

- Laundry Rooms:
 - Dry delicates, silks and other fabrics/garments that don't go in a tumble dryer.
 - Reduce wrinkles while gently drying clothes.
 - Keeps laundry organized – no longer hanging on banisters, shower curtain rods or door handles.
- Mud or Wet Rooms:
 - Hang and dry coats, scarves, mittens etc on cold & wet winter days.
 - Dry bathing suits, pool/beach towels, wet suits and life jackets during the summer.
 - Reduces humidity and provides warmth during colder months.

APPLICATIONS: OTHER

Some applications that are less common, but still offer plenty of benefits include:

- Pool house
- Basement
- Garage/workshop
- Nursery
- Boats/RVs

Commercial: Hotels, assisted living, spas/gyms, multi-family

Yotel Hotel – Radiant RWH-SP

HEATING TIME & TECHNOLOGY

Dry Element (DE) Technology - units have a wire cable that run through all *vertical & horizontal* bars (Many competitors only heat the horizontal bars).

- Pros: Fast heat up time – only 10 to 15min with heat starting in as little as 5min
- Cons: Heating cables cannot be repaired – entire unit must be replaced

Collections: *Sirio, Quadro, Antus, Vega, Radiant, Solo & Swivel*

Liquid Filled (LF) technology - Units are filled with a glycol-water solution. A heating element heats the liquid which heats the bars.

- Pros: Heating element can be replaced if it fails; entire unit *does not* need to be replaced
- Cons: Longer heat up times – range from 15 to 45min depending on the size of the unit

Collections: *Jeeves & Traditional*

WHY SELL AMBA?

Choose from 9 different collections

- Good: Radiant, Solo, Swivel
- Better: Jeeves, Traditional
- Best: Antus, Quadro, Sirio, Vega

Choose from 10 stocked finishes

- Polished SS, Brushed SS, Polished Nickel, Brushed Nickel, Matte Black, Satin Brass, Brushed Bronze, Polished Gold, ORB, White

Over 175+ stocked SKUs with <1week lead time

We offer custom sizes & finishes – can color match other MFGs unique finishes.

CUSTOM SIZES & FINISHES

- Only available for Italian Collections:
 - Sirio, Quadro, Vega & Antus
- RAL Color Codes – match your towel warmer to your faucet or tub surround
- Custom Finishes – match almost any finish from MFGs to keep a consistent look
- Lead time is 10-16 weeks
- Factory may require sample chip to analyze and match your finish

SPECIAL ORDER FINISH OPTIONS

Amba Products offers custom finishes when our stocked options don't satisfy the aspirations of customers when designing the perfect bathroom! Only available on select collections - Sirio, Quadro, Vega & Antus - your client can now choose from any RAL Color (a European color matching system, similar to Pantone color codes), specialty finishes like polished or brushed Golds, Brasses, Nickels, as well as color matching many manufacturers unique or specific finishes. Almost any color can be done!

SPECIAL ORDER LEAD TIME:

10-16 WEEKS FROM WHEN ORDER IS PLACED
CANNOT BE CANCELED OR RETURNED

HOW TO SELL HEATED TOWEL RACKS

- Accessories are usually the last to be picked, leaving minimal budget
- In most primary bathrooms, you specify 2x towel bars & 2x robe hooks
- Reallocate that \$\$\$ to 1 towel warmer – you're **not** adding more costs!
- 1 towel warmer replaces all 4 accessories
- Upgrades the bathroom and provides a more luxurious, bathroom oasis.
- Some models can even save money compared to the cost of robe hooks and towel bars

There are two sections on this towel warmer to hold 2 towels; the vertical bars double as robe hooks to hold 2 bathrobes

REQUIREMENTS

It is important that your client will be able to install the product. Below are some basic requirements.

- *Electricity:*
 - Requires standard 120V connection.
 - **Doesn't** require a dedicated circuit.
- *Space:*
 - They must have the wall/floor space for the unit to fit.
 - Backing is recommended for wall mounted units.
- *Code:*
 - National Electrical Code (NEC) dictates a towel warmer must be 3' from water source (unless using Jeeves Wet Rated Kit).
 - Local codes supersede national code.
 - All products are UL or ETL certified for USA & Canada

Liberty Hotel by Hilton – Jeeves ESMB

COLLECTIONS & ACCESSORIES

JEEVES COLLECTION

Highlights:

- 5 Stocked Finishes: Brushed, Polished, Matte Black, ORB & White
- Custom Sizes available in catalog

DIGITAL HEAT CONTROLLER

Standard Digital Heat Controller

Remotely Wired Digital Heat Controller

- Designed to allow users to have control over the temperature; there are 9 heat levels to choose from.
- Digital Heat Controller is included with our Italian collections: ***Quadro, Sirio, Antus, & Vega.***
- A remotely wired DHC is available if you want to locate the controller away from the unit itself. This could be due to space constraints or to make it easier to interact with.

TIMERS & SWITCHES

A choice of controls that can be used with our heated towel racks.

PLUG-IN PROGRAMMABLE
TIMER

On/Off switch:

- *ATW-S-W* – Hardwired

24hr/7day Programmable Timers:

- *ATW-T24* – Hardwired
- *ATW-T24-BL* – Black color change kit
- *ATW-P24* – Plug-in

ON/OFF
SWITCH

COUNTDOWN TIMER

Wi-Fi Smart switch:

- *ATW-SS* - Hardwired
- *ATW-SS-BL* – Black color change kit

Wi-Fi Smart Switch & Hardwired
Programmable Timer

Countdown timer:

- *ATW-CDT* – Hardwired
- *ATW-CDT-BL* – Black color change kit

Note: BLACK COLOR CHANGE KITS SOLD SEPARATELY

DOUBLE GANG PLATE

The double gang plate is an optional accessory which replaces the standard single gang plate.

It allows for placement of switch/timer next to towel warmer. This makes for a cleaner, more purpose designed look.

Fits a standard US double gang box, and comes in matching finishes

Jeeves: AJ-DGP-*Finish Code*
Radiant: AR-DGP-*Finish Code*

**Radiant Square Models use
the Jeeves Double Gang Plate**

BATHROBE HOOKS

- Available for Jeeves, Sirio, Quadro, Vega & Antus Collections.
- Only stocked in Brushed & Polished finishes – Special finishes available upon request
- Easily secures to the unit
