TOWEL WARMERS | SPACE HEATERS |
DRYING RACKS

LEARNING OBJECTIVES

- Benefits, functions and applications
- Technology
- How to Sell
- Collections and Accessories

BENEFITS

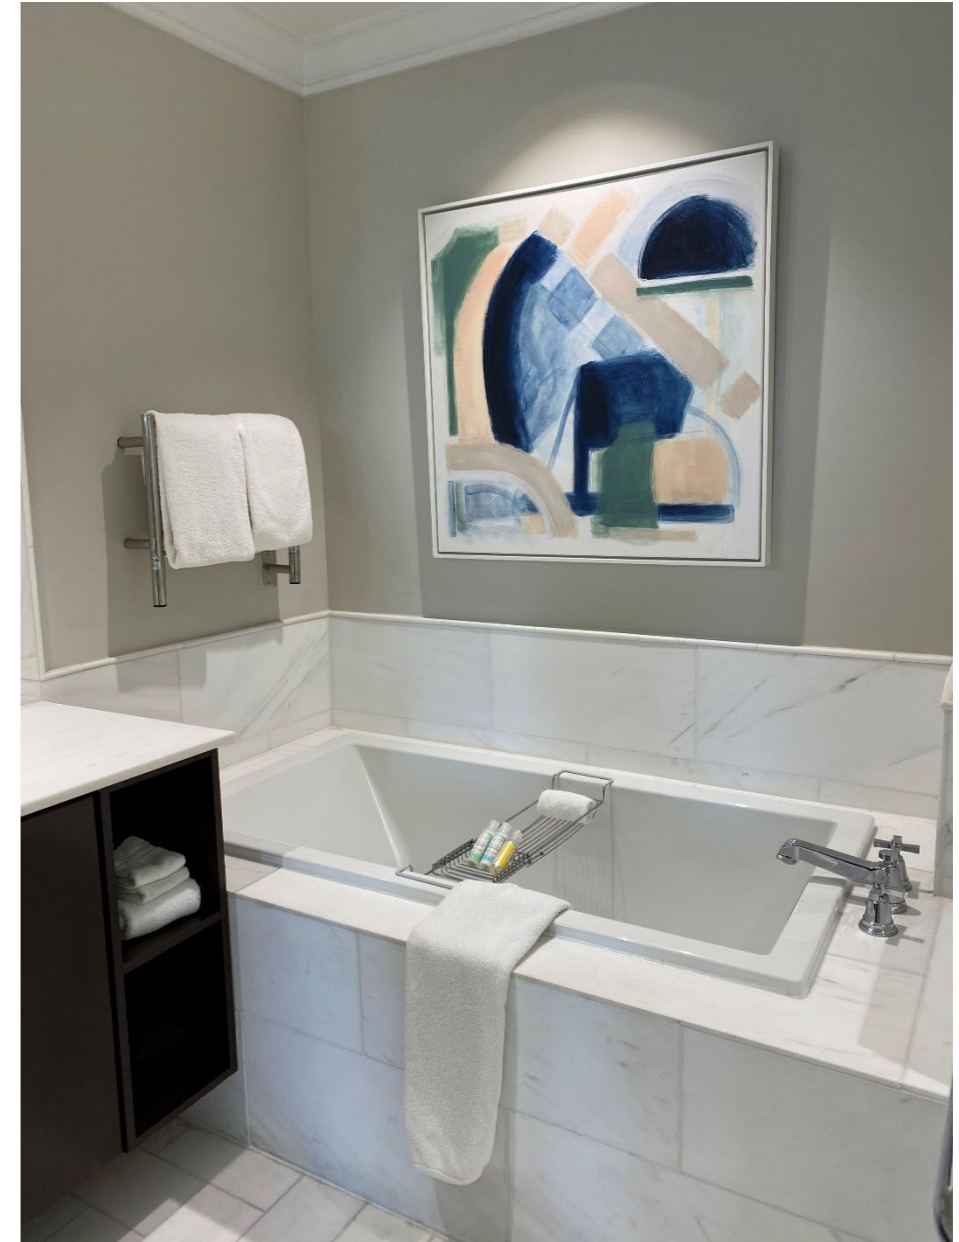

There are 3 major benefits of Heated Towel Racks

1. Luxury & Comfort
2. Health & Wellness
3. Cost Savings

LUXURY & COMFORT

- Heated Towel Racks provide a wonderful luxury and comfort as one finishes their bathing routine.
- Wrap yourself in a warm, cozy towel or bathrobe after a shower/bath.
- Provides radiant heat to a bathroom, improving the guest's comfort.
- Plays into the senses of temperature & touch: It's like a warm embrace.
- Never use a damp and smelly towel again!

The Spectator Hotel – Jeeves HSP

HEALTH & WELLNESS

Health & Wellness has become an important element in interior design.

- Heated Towel Racks have been proven to reduce bacteria growth on towels:
 - 94% reduction after 3 days
 - 99% reduction after 7 days
 - Eliminates foul odors caused by mold and bacteria – towels always smell fresh and clean.
- Reduce humidity in bathroom by eliminating moisture.
- Promotes a healthier and more hygienic environment by drying towels and spaces which helps prevent mold, mildew and bacteria growth.

Contaminated-Soiled Dampening Experiment Results

The heated towels demonstrated far fewer bacteria per square inch of towel than the unheated towels at each timepoint evaluated, after day-0. This indicates that the heated towels mitigated against the growth of the experimental bacteria introduced to the towel during the daily dampening. It is notable that the active bacterial load on the towels actually decreased between day 0 and day 3 suggesting that the majority of bacteria introduced at the time of dampening were not viable after exposure to the either towel rack. After Day-3, heated towels had between 0.17 – 03.6% of the recovered bacteria relative to unheated towels, **resulting in a ≥94% reduction of living bacteria on towels that are dried on a heated towel rack compared to similarly treated towels that are not heated.**

A musty odor was only detected on the unheated towels at day-4 and beyond.

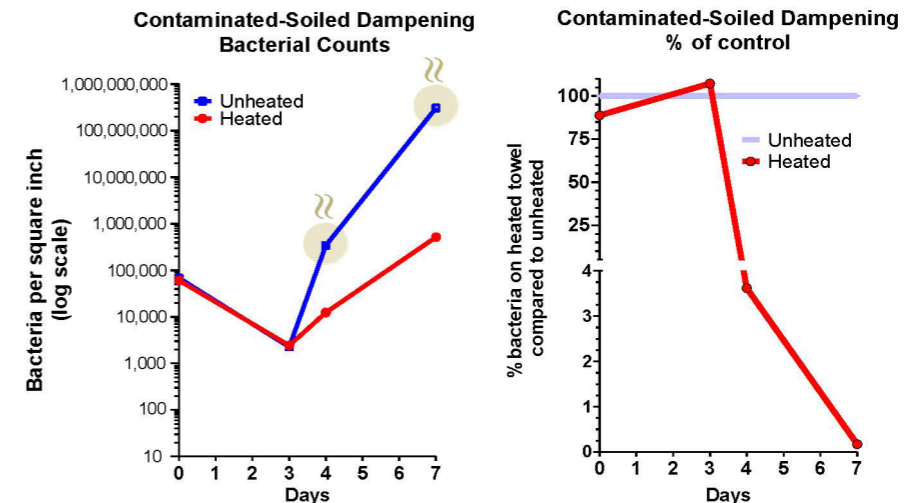

Figure 2: Quantitation of viable bacteria extracted from towels after daily cycles of contaminated-soiled dampening. [Left] Raw numbers of bacteria per square inch extracted from towel cuttings, expressed as the average value from 3 towels. Values are plotted on a log scale. Conditions that were observed to have a musty odor are highlighted with a tan circle and an odor symbol. [Right] The quantity of viable bacteria extracted from the heated towels is expressed as a percentage of the control (unheated) towels at the same timepoint.

Heated Towel Rack Mitigates Bacterial Growth
Assessment of the EMSL Analytical Report on the Efficacy of the Solo 33" Freestanding Towel Warmer to reduce bacterial growth on towels under daily wetting conditions².
Jack M. Webster PhD

COST SAVINGS

Drawing from a survey of 3,000 households, we've distilled key insights into the everyday savings afforded by heated towel racks. Our analysis quantifies the savings in terms of time, electricity, water, and detergent use.

Time Savings:

If laundry takes 2 hours per week, using a heated towel rack to extend the time between washes to every other week frees up roughly **26 hours a year** for an average household.

Electricity Savings:

A heated towel rack costs about **\$4 per month to run**. In contrast, the average washing machine and dryer can cost around **\$16 per month to operate** weekly. By extending towel use and halving laundry frequency, a household could **save roughly \$8 per month** on their electricity bill.

Water Conservation:

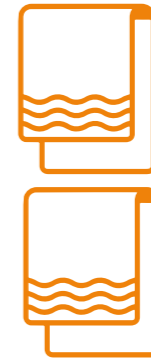

By shifting to bi-weekly laundering, a household that uses 20 gallons of water per laundry load can **save an impressive 520 gallons of water yearly**, a stride toward more sustainable living.

Detergent Savings:

Decreasing wash frequency by half means you also **halve your detergent consumption**, fostering financial savings and a lighter ecological footprint.

Wear & Tear:

Heated towel racks can reduce towel wear, **extending their lifespan** and reducing the need for replacements—a subtle yet significant saving.

Assumptions:

Laundry Loads per Week: 1

Average Household: 4 People

Towels per person per Week: 2

Average HTR Rating: 150W

Electricity Cost: \$0.17 per kWh

Savings with Bi-Weekly Towel Washing Using a Heated Towel Rack:

Time: 2.17 hours monthly / 26 hours yearly saved

Electricity: ~\$10 yearly

Water: 40 gallons monthly / 520 gallons yearly saved

HEATED TOWEL
RACKS**

BATHROOMS

Most Heated Towel Racks are installed in bathrooms. Whether its to provide radiant heat, dry damp towels after use, or warm them up, they offer many improvements over a standard towel bar or robe hook.

- Add comfort and luxury to bathing experience
- Keep towels and bathrobes dry and warm
- Clean, fresh and fluffy towels – every time!
- Provide radiant heat to bathroom – take cool edge off during cold winter mornings
- Reduces humidity & moisture in bathroom
- Replaces need for towel bars & robe hooks

WET AREA APPLICATIONS – JEEVES & CAPE COLLECTIONS

When installing a towel warmer in a ‘wet area’, additional precautions need to be taken to meet code & safety requirements

- Amba’s **UL Certified** wet rated kit makes any Jeeves or Cape model safe for wet areas
- Wet Rated Kit eliminates restrictions and provides more convenience and flexibility for installation
- Approved for NEC Zone 1 & Zone 2 locations:
 - Above a bathtub
 - In a shower
 - In a wet room or wet area

COMPATIBLE WITH JEEVES COLLECTION CAPE COLLECTION

Wet-rated kits are optional UL certified upgrades that allow for the safe installation of towel warmers in wet areas. These kits enable the use of towel warmers in locations such as above bathtubs, in shower alcoves, walk-in shower stalls, or wet rooms. By following proper installation procedures, these kits ensure that towel warmers are safe to operate in environments exposed to moisture.

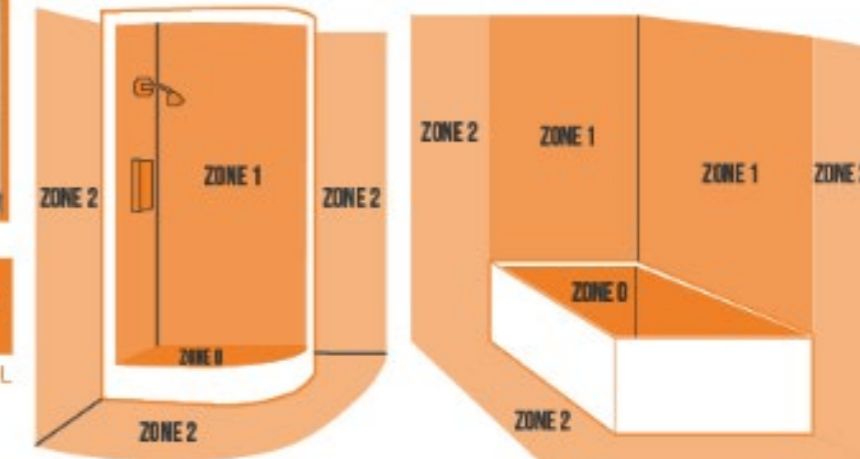

Currently, wet-rated kits are available for the Jeeves and Cape Collections. They provide flexibility to install in convenient locations to the bath or shower, while maintaining safety for all users.

MAKE SURE YOU CONSULT LOCAL ELECTRICAL CODE TO CONFIRM INSTALLATION
NOTE: WATERPROOF WIRE CONNECTORS ARE RECOMMENDED BUT NOT INCLUDED

APPLICATIONS: LAUNDRY & MUD ROOMS

- Laundry Rooms:

- Dry delicates, silks and other fabrics/garments that don't go in a tumble dryer.
- Reduce wrinkles while gently drying clothes.
- Keeps laundry organized – no longer hanging on banisters, shower curtain rods or door handles.

- Mud or Wet Rooms:

- Hang and dry coats, scarves, mittens etc on cold & wet winter days.
- Dry bathing suits, pool/beach towels, wet suits and life jackets during the summer.
- Reduces humidity and provides warmth during colder months.

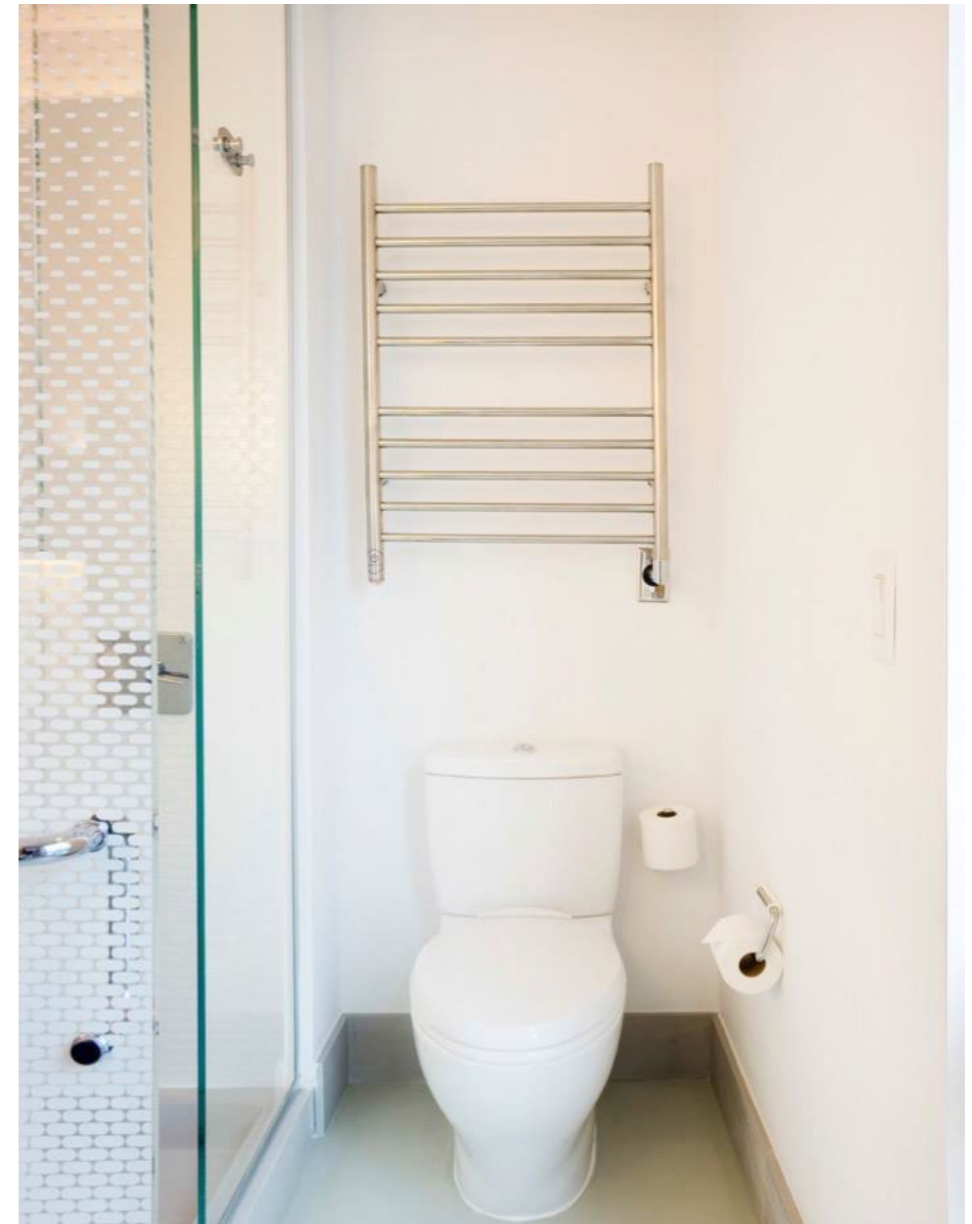

OTHER APPLICATIONS

Some applications that are less common, but still offer plenty of benefits include:

- Pool house
- Basement
- Garage/Workshop/Home Gym
- Nursery
- Boats/RVs

Commercial: Hotels, assisted living, spas/gyms, multi-family

Yotel Hotel – Radiant RWH-SP

HEATING TECHNOLOGY

Dry Element (DE) Technology - units have a wire cable that run through all *vertical & horizontal* bars (Many competitors only heat the horizontal bars).

- Pros: Fast heat up time – only 10 to 15min with heat starting in as little as 5min
- Cons: Heating cables cannot be repaired – entire unit must be replaced

Collections:

Italy: *Sirio, Quadro, Antus, Vega, Modello i*

South Africa: *Cape*

China: *Radiant, Solo & Swivel*

Liquid Filled (LF) technology - Units are filled with a glycol-water solution. A heating element heats the liquid which heats the bars.

- Pros: Heating element can be replaced if it fails; entire unit *does not* need to be replaced
- Cons: Longer heat up times – range from 15 to 45min depending on the size of the unit

Collections:

South Africa: *Jeeves*

China: *Traditional*

COMPETITIVE ADVANTAGES

Amba **only** sells heated towel racks– we are the experts!

Choose from 11 different collections

- Good: Cape, Radiant, Solo, Swivel
- Better: Jeeves, Traditional
- Best: Antus, Quadro, Sirio, Vega, Modello i

Choose from 10 stocked finishes

- Polished SS, Brushed SS, Polished Nickel, Brushed Nickel, Matte Black, Satin Brass, Brushed Bronze, Polished Gold, ORB, White

Over 175+ SKUs stocked in GA with <1 week lead time.

Over 250+ special order sizes – as narrow as 13” wide and up to 80” tall to fit unique spaces

Custom finishes – RAL & PVD; color match other MFGs

CUSTOM SIZES & FINISHES

- Available for our Italian Collections:
 - Sirio, Quadro, Vega, Antus & Modello i
- RAL Color Codes – match your towel warmer to your faucet or tub surround
- Custom Finishes (PVD) – match almost any finish from MFGs (No living finishes)
- Lead time is 10-16 weeks
- Factory may require sample chip to analyze and match your finish

SPECIAL ORDER FINISH OPTIONS

Amba Products offers custom finishes when our stocked options don't satisfy the aspirations of customers when designing the perfect bathroom! Only available on select collections - Sirio, Quadro, Vega & Antus - your client can now choose from any RAL Color [a European color matching system, similar to Pantone color codes], specialty finishes like polished or brushed Golds, Brasses, Nickels, as well as color matching many manufacturers unique or specific finishes. Almost any color can be done!

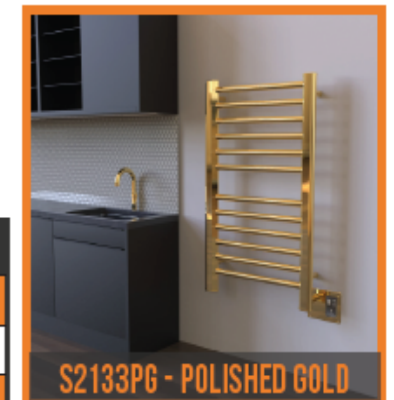

SPECIAL ORDER LEAD TIME:
10-16 WEEKS FROM WHEN ORDER IS PLACED
CANNOT BE CANCELED OR RETURNED

LIST PRICES FOR US CUSTOMERS
FOR CANADA, PLEASE CONTACT US

CUSTOM FINISH PRICING — ALL NON-RAL FINISHES

When specifying a Custom Finish, please indicate the finish and manufacturer you are trying to replicate: We may request a sample chip to analyze the finish to ensure accuracy. Finish chips will not be returned as they are sent directly to our factory in Italy.

HOW TO SELL HEATED TOWEL RACKS

- Accessories are usually the last to be picked, leaving minimal budget
- In most primary bathrooms, you specify 2x towel bars & 2x robe hooks
- Reallocate that \$\$\$ to 1 towel warmer – you're **not** adding more costs!
- 1 towel warmer replaces all 4 accessories
- Upgrades the bathroom and provides a more luxurious, bathroom oasis.
- Some models can even save money compared to the cost of robe hooks and towel bars

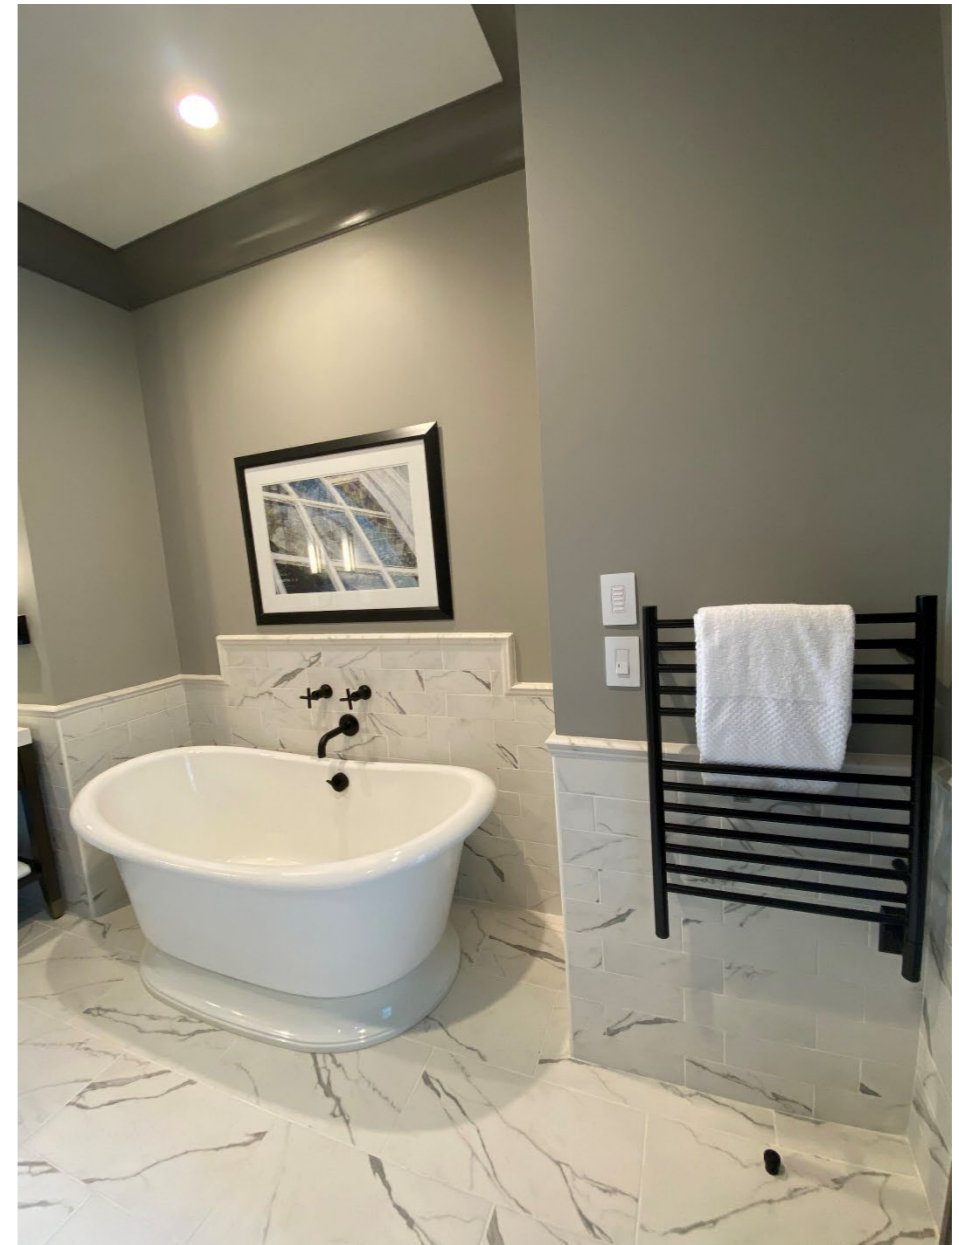

There are two sections on this towel warmer to hold 2 towels; the vertical bars double as robe hooks to hold 2 bathrobes

REQUIREMENTS

It is important that your client be able to install the product. Below are some basic requirements.

- *Electricity:*
 - Requires standard 120V connection.
 - **Doesn't** require a dedicated circuit.
- *Space:*
 - They must have the wall/floor space for the unit to fit.
 - Backing is recommended for wall mounted units.
- *Code:*
 - National Electrical Code (NEC) dictates a towel warmer must be 3' from water source (unless using a Wet Rated Kit).
 - Local codes supersede national code.
 - All products are UL or ETL certified for USA & Canada

Liberty Hotel by Hilton – Jeeves ESMB

COLLECTIONS & ACCESSORIES

JEEVES COLLECTION

Highlights:

- 5 Stocked Finishes: Brushed, Polished, Matte Black, ORB & White
- Custom Sizes available – see catalog: 13” W, 16”W & 24”W options
- UL-certified “Wet-rated Kit” available
- Heat up time: 15 to 45min
- Liquid filled heating technology - replaceable heating element
- Left hand electrical wiring available by request

What to Order:

- Included: Unit comes with hardwire kit & mounting hardware
- Required: Timer or On/Off Switch
- Optional: Double gang plate; bathrobe hanger

CAPE COLLECTION

Highlights:

- Plug-in & hardwired combo
- 3 Stocked Finishes: Brushed, Polished and Matte Black
- UL-certified “Wet-rated Kit” available
- Dry element technology: 10-15min heat up time
- Integrated On/Off switch

What to Order:

- Included: Unit comes with plug-in / hardwire kit & mounting hardware
- Required: Nothing additional
- Optional: Double gang plate; Timer

SIRIO COLLECTION

Highlights:

- Dry element technology: 10-15min heat up time
- Stocked Finishes: Brushed, Polished, Brushed Bronze and Satin Brass
- Digital Heat Controller:
 - Choice between integrated or remote installation
 - 5 levels of temperature control
 - Temp range between 110F – 194F
- Dual-purpose function: Heated Towel rack and space heater
- Custom sizes and finishes available – special order

What to order:

- Included: Unit comes with hardwire kit & mounting hardware
- Required: Touch DHC or Remote Touch DHC + Concealed wall box
- Optional: Timer; Bathrobe hanger, Spacers (uneven surfaces)

QUADRO COLLECTION

Highlights:

- Dry element technology: 10-15min heat up time
- Stocked Finishes: Brushed, Polished, and Matte Black; *Brushed Bronze in Q2132 model only*
- Digital Heat Controller:
 - Choice between integrated or remote installation
 - 5 levels of temperature control
 - Temp range between 110F – 194F
- Dual-purpose function: Heated Towel rack and space heater
- Custom sizes and finishes available – special order

What to order:

- Included: Unit comes with hardwire kit & mounting hardware
- Required: Touch DHC or Remote Touch DHC + Concealed wall box
- Optional: Timer; Bathrobe hanger, Spacers (uneven surfaces)

VEGA COLLECTION

Highlights:

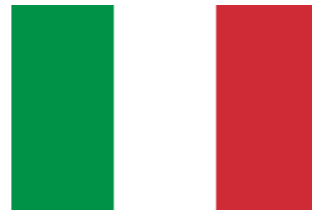

- Dry element technology: 10-15min heat up time
- Stocked Finishes: Brushed, Polished, Matte Black and White
- Digital Heat Controller:
 - Choice between integrated or remote installation
 - 5 levels of temperature control
 - Temp range between 110F – 194F
- Dual-purpose function: Heated Towel rack and space heater
- Custom sizes and finishes available – special order

What to order:

- Included: Unit comes with hardwire kit & mounting hardware
- Required: Touch DHC or Remote Touch DHC + Concealed wall box
- Optional: Timer; Bathrobe hanger, Spacers (uneven surfaces)

ANTUS COLLECTION

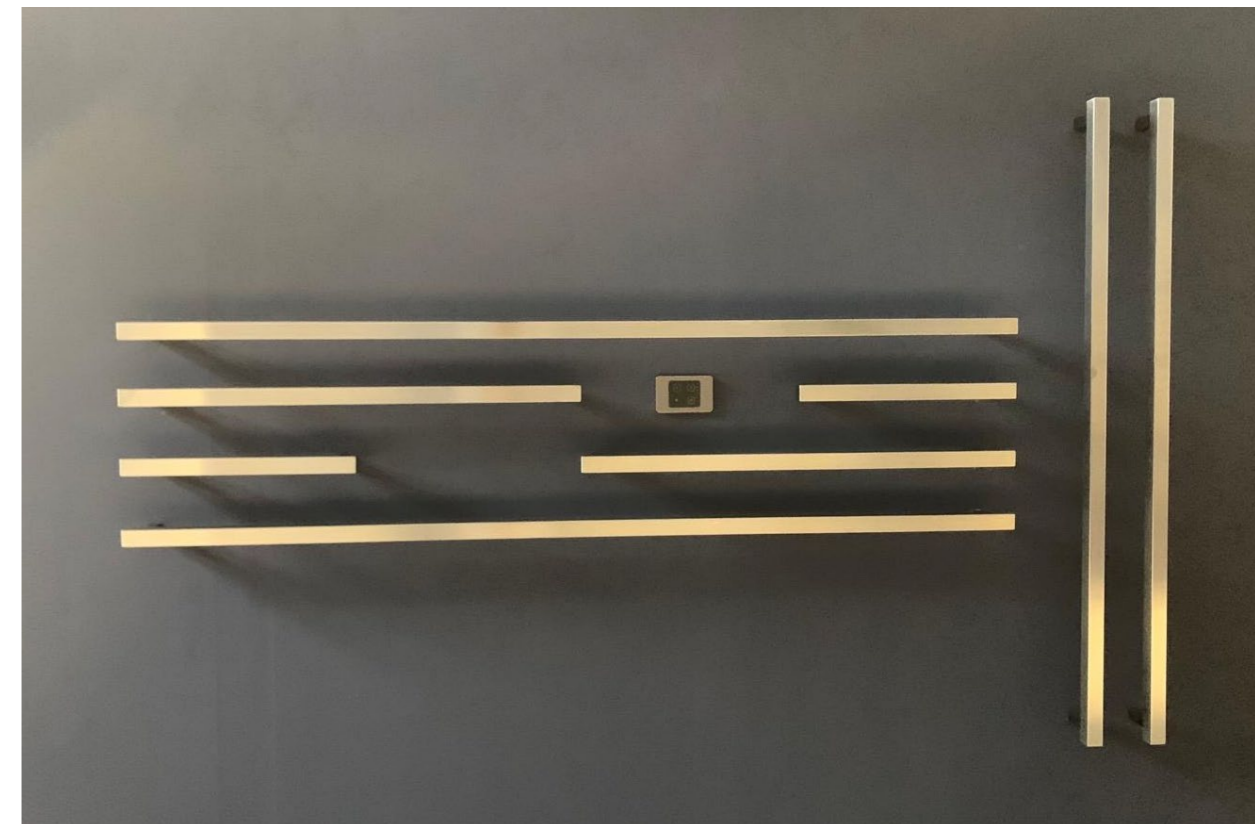

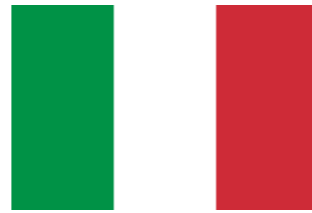

Highlights:

- Dry element technology: 10-15min heat up time
- Stocked Finishes: Brushed and Polished
- Digital Heat Controller:
 - Choice between integrated or remote installation
 - 5 levels of temperature control
 - Temp range between 110F – 194F
- Dual-purpose function: Heated Towel rack and space heater
- Custom sizes and finishes available – special order

What to order:

- Included: Unit comes with hardwire kit & mounting hardware
- Required: Touch DHC or Remote Touch DHC + Concealed wall box
- Optional: Timer; Bathrobe hanger, Spacers (uneven surfaces)

MODELLO I COLLECTION

Highlights:

- Styles: Round or Square bars
- Sizes: 20", 40" & 59" lengths stocked ... 78" available by special order
- Stocked Finishes: Brushed, Polished, Matte Black and Satin Brass
- Mix and match sizes, styles and finishes to create a unique design
- Dry element technology: 10-15min heat up time
- Digital Heat Controller:
 - Choice between integrated or remote installation
 - 5 levels of temperature control
 - Temp range between 110F – 194F
- Custom sizes and finishes available – special order

What to order:

- Included: Unit comes with hardwire kit & mounting hardware
- Required: Touch DHC or Remote Touch DHC + Concealed wall box
- Optional: Timer; Spacers (uneven surfaces)

TRADITIONAL COLLECTION

Highlights:

- Beautifully crafted finials create a decorative design
- Liquid filled heating technology – replaceable heating element
- Stocked finishes: Brushed Nickel, Polished Nickel & Brushed Bronze
- Heat up time: 30-40min
- Left hand electrical wiring available

What to order:

- Included: Hardwire kit & Mounting Hardware
- Required: Timer or Switch

RADIANT COLLECTION

Highlights:

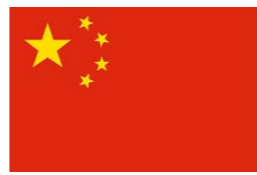

- Round and square bar options available to suit your style
- Plug-in & Hardwired combo – single sku for either installation type
- Stocked finishes: Brushed & Polished (all models); Matte Black, Satin Brass, Brushed Bronze and Polished Gold in specific models only
- Sizes: Small, Medium & Large and a Shelf unit
- Dry element technology: 10-15min heat up time
- Integrated On/Off switch located on bottom of vertical bar

What to order:

- Included: Plug-in + Hardwired kit; Mounting Hardware; On/Off switch
- Required: Nothing additional
- Optional: Timer; Double gang plate

SOLO COLLECTION

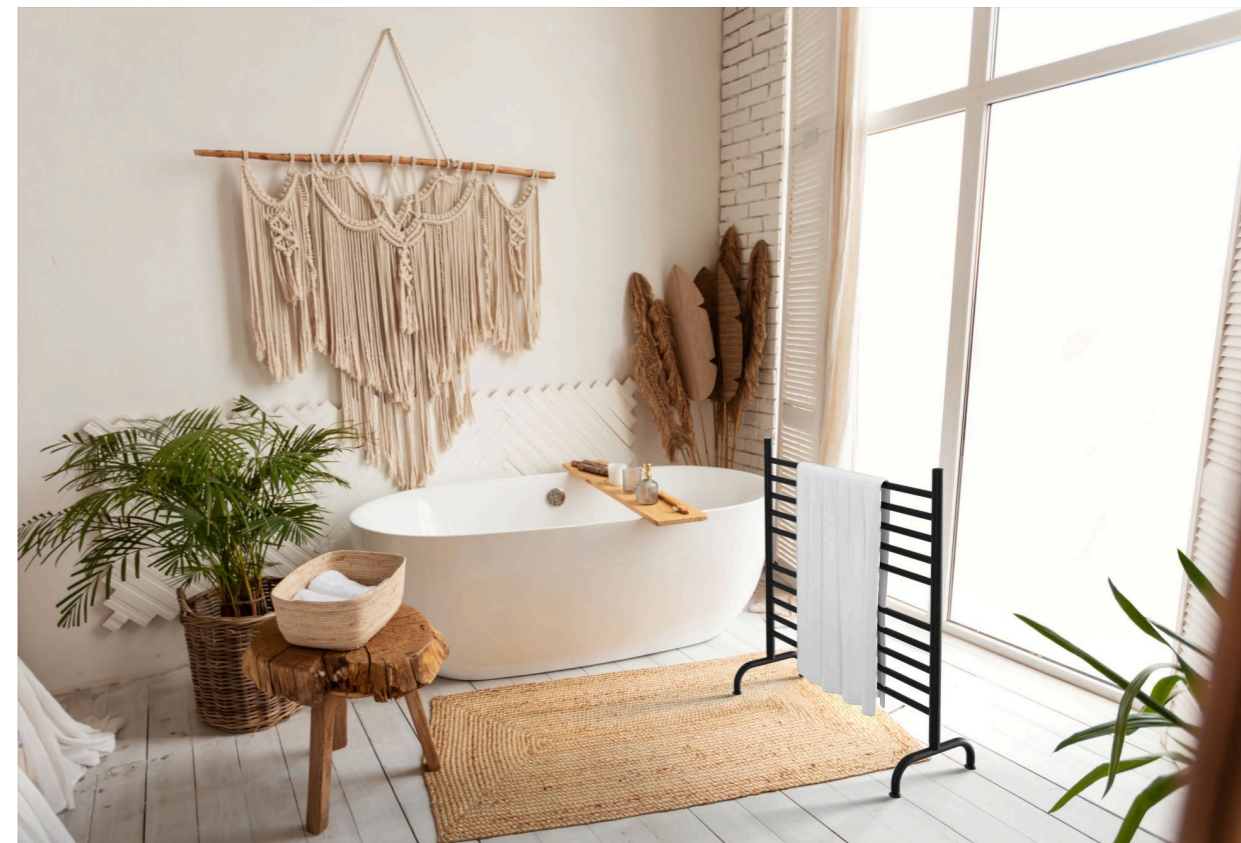

Highlights:

- Freestanding model – stands on its own and plugs into outlet
- Stocked finishes: Brushed, Polished & Matte Black
- Lightweight & portable – move from bathroom to laundry room or outdoor pool/jacuzzi etc
- Ideal for use next to freestanding and walk-in bathtubs
- Dry element technology: 10-15min heat up time

What to order:

- Included: Mounting legs, plug-in kit, On/Off Switch
- Optional: Plug-in programmable timer

TOUCH DIGITAL HEAT CONTROLLER

Integrated Touch DHC

Remote Touch DHC

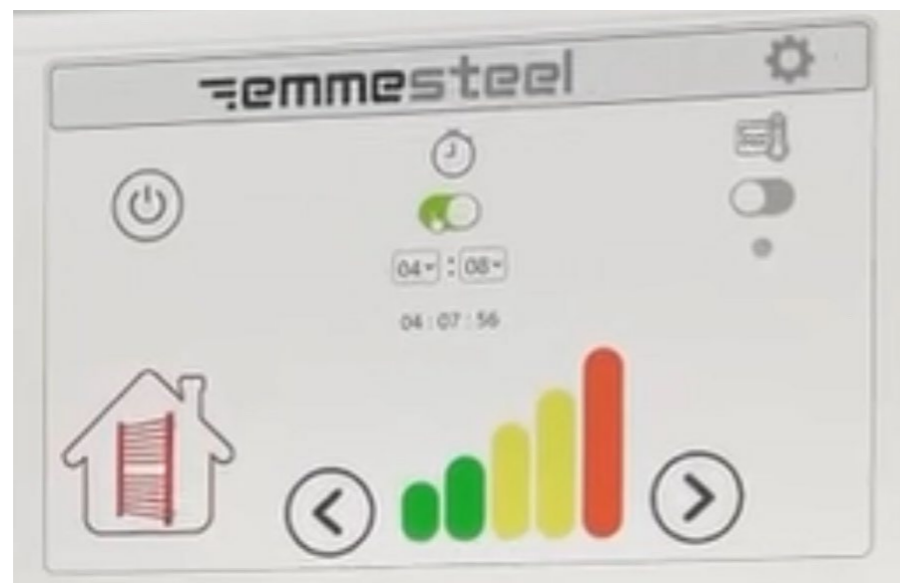

Compatible with our Italian collections: **Quadro, Sirio, Antus, Vega & Modello i.**

5 temperature levels - allows users to control temperature.

Integrated Countdown Timer

- Wi-Fi Connectivity – control temperature level & set timer from phone
- Choose between integrated & remotely wired option
- *Must add this when ordering any of these collections*

Wi-Fi Control Display

TIMERS & SWITCHES

A choice of controls that can be used with our heated towel racks. All controls are made by Leviton – any brand can be used with our products should your customer prefer an alternative option

Plug-In Programmable Timer

On/Off switch:

- *ATW-S-W* – Hardwired

24hr/7day Programmable Timers:

- *ATW-T24* – Hardwired
- *ATW-T24-BL* – Black color change kit
- *ATW-P24* – Plug-in

On/Off Switch

Hardwired Programmable Timer

Wi-Fi Smart switch:

- *ATW-SS* - Hardwired
- *ATW-SS-BL* – Black color change kit

Wi-Fi Smart Switch

Hardwired Countdown Timer

Countdown timer:

- *ATW-CDT* – Hardwired
- *ATW-CDT-BL* – Black color change kit

Note: BLACK COLOR CHANGE KITS SOLD SEPARATELY

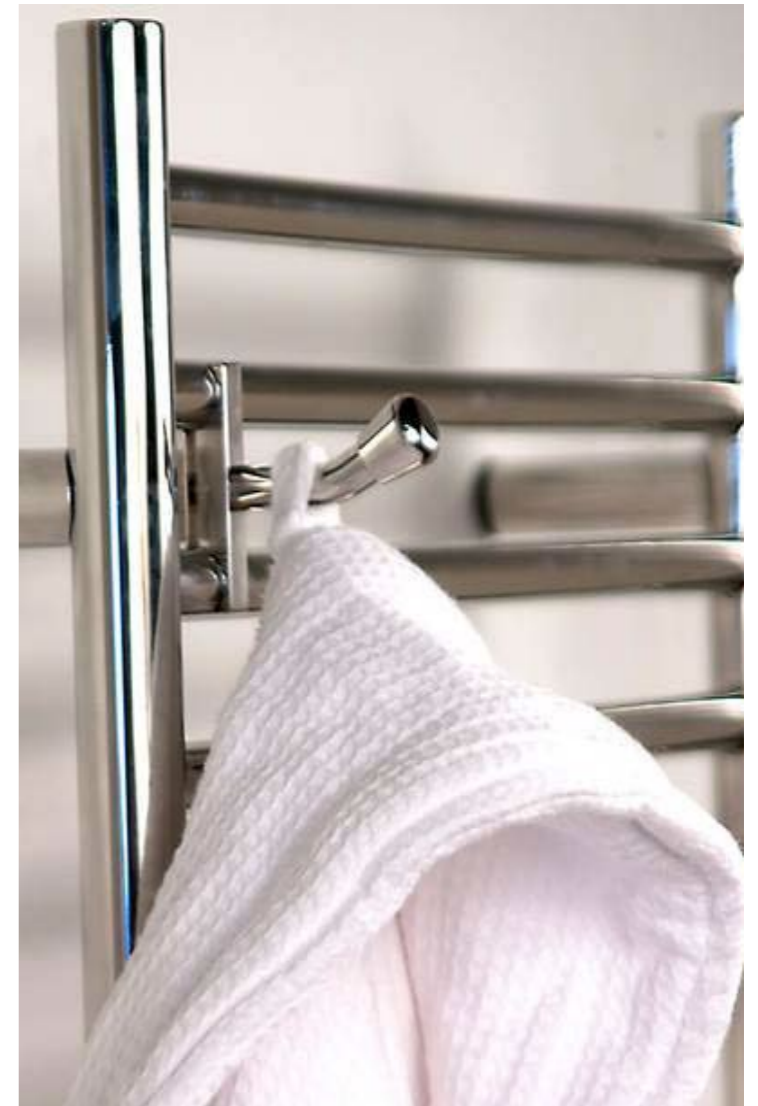

DOUBLE GANG PLATE

- Compatible with Jeeves, Cape & Radiant Collections SKU: AJ-DGP-*finish code*
- SKU: AJ-DGP-*Finish Code*
- The double gang plate is an optional accessory which replaces the standard single gang plate.
- It allows for placement of switch/timer next to towel warmer. This makes for a cleaner, more purpose designed look.
- Fits a standard US double gang box, and comes in matching finishes

BATHROBE HOOKS

- Available for Jeeves, Sirio, Quadro, Vega & Antus Collections.
- Only stocked in Brushed & Polished finishes
- Easily secures to the unit
